ECP[®]

CELEBRATING 25 YEARS

NEW YEAR, NEW NEWSLETTER

Notice the difference? It's no secret our logo has changed from a globe. We evolved into a symbol that embodies growth, innovation, and forward-looking spirits. Which calls for a newsletter reflecting this change. As we celebrate this symbolic shift, we also celebrate 25 years of unwavering dedication, resilience, and the remarkable relationships we've built along the way. Here's to the next quarter-century of accomplishments, challenges, and milestones as we embrace the future with open arms and a bold new identity.

Thank you for being part of our incredible journey!

HISTORY OF OUR LOGO

1998-2002

2002-2008

2008-2017

2017-NOW

"The Secret of change is to focus all of your energy, not on fighting the old, but on building new."
Socrates

PRODUCT & PARTNER SPOTLIGHT

1 SLAB BRACKET PPB-166

Whether you're working on residential, commercial, or industrial projects, the SLAB BRACKET PPB-166 is your go-to solution for reliable, high-performance slab support. Elevate your construction experience with the innovative SLAB BRACKET PPB-166 — where strength meets precision.

2 MASON GRADY FOUNDATIONS

Mason Grady Foundations consistently delivers with a level of professionalism that exceeds expectations. Their team's expertise and collaborative approach make them not just a service provider but an extension of our own mission. We look forward to many more years of collaboration and mutual growth.

FOUNDATIONS

VENDOR SPOTLIGHT

Dinamic Oil has supported the helical pile installation industry since 2008 with our wide range of planetary gearboxes. In 2020, they entered the market directly with an extensive offering of Anchor Drive attachments developed specifically for the demanding helical pile installation industry. They offer single and two-speed models that withstand long duty cycles and produce reliable TRUE TORQUE (not theoretical) results. Their models range from 5,000 ft-lbs to 300,000 Ft-lbs of actual torque.

To complement the Drive models, they developed several machine mounting solutions. Their popular Tele-Mount is a multi-machine (skid loader or excavator) mounting platform ideal for installing long pile sections and on job sites where machine movement is limited due to soil conditions or obstructions. The telescopic boom provides impressive ground clearance and gives the operator excellent visibility during installs.

Rounding out the complete installation package is the Energi Pressure Management system. Energi-PM easily adapts to any make and model of Anchor Drive. Combining tried and true pressure monitoring with next-generation WiFi data acquisition technology, Energi-PM uses your mobile device to manage and record your helical pile installations. Download our free intuitive mobile app for either iOS® or Android and make any Drive a Smart-Drive.

THE NEW FACES

*of the
Team*

Garrett
Roberts

Our newest engineer, Garrett, has been with ECP close to a year now! Fun Fact about Garrett, he's left handed.

CALENDAR

3-6
MARCH

**SPFA
SHOW**

The 2024 SprayFoam Convention & Expo is Going to Vegas! Come visit the ECP team at booth #523. This is an excellent event to showcase our Polypier products. Come learn about ECP and Polypier, and everything else ECP has to offer!

11-13
MARCH

**HELICAL PILES
TRAINING**

In our helical pier training, we not only focus on how to install them but also on the testing done before, during, and after installation to make sure they can solve the building's foundation problems.

1-3
APRIL

**PUSH PIER
TRAINING**

This is the training you need to make the installation as easy as possible. We show not just the actual mechanics of the installation, but all of the considerations and calculations that need to take place before the first pier is pressed.

of events

8-10

APRIL

**POLYPIER
TRAINING**

If you're eager to learn the art of polyurethane foam injection, here we will guide you through the essential steps and skills needed to become proficient in this innovative method.

30-2

APRIL-MAY

**BHA
SHOW**

The Basement Health Association 2024 Meeting is taking place just outside of Philadelphia, PA. This event will offer a dual track of speakers and round table sessions for all to benefit from.

7-10

MAY

**IFCEE
SHOW**

IFCEE will be taking place in Dallas, TX at the Hyatt Regency! IFCEE is a technical conference and equipment show dedicated to the design and construction of foundation systems. Swing by our booth #712!

THANK YOU #ECPNATION

We enjoyed seeing everyone at the World of Concrete this year! This was the busiest show we've seen with a record # of attendees & exhibitors showcasing the latest advancements in concrete construction and technology. It was a great opportunity to connect with industry professionals, exchange ideas, and explore new opportunities for collaboration. Thank you to everyone who stopped by our booth and contributed to making this event a huge success. We look forward to continuing the momentum and building upon the connections made at World of Concrete.

We are heading to The 2024 SprayFoam Convention & Expo March 3-6! Visit Nick, Aaron, Josh, and Brad @ booth #523 to learn more and discover how PolyPier can elevate your projects to new heights.

DRIVEN 2024

September 23-26th

Harrah's Kansas City
One Riverboat Dr, North Kansas
City, MO, 64116

Owners, Sales, Project Managers

- Product Training
- Guest Speakers
- Project of the Year Award
- Networking

DRIVEN is a way to bring our community of partners together to celebrate everyone's success and strengthen the bonds that drive us forward. It's a time to reflect on the milestones we've achieved together, recognize the hard work and dedication of each member, and inspire one another for the journey ahead. Through shared experiences, networking opportunities, and collaborative discussions, we aim to uphold a supportive and collaborative environment where ideas flourish, relationships deepen, and innovation thrives.
